Summary

I am a Java Full Stack Developer with **1 year of work experience**. I know **HTML, CSS, JavaScript, React.js, Tailwind CSS, Bootstrap, Material UI** for frontend and **Java, Spring Boot, MySQL** for backend. I can design and build user-friendly websites and applications, connect APIs, manage databases, and solve errors.

Skills

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS, Bootstrap, Material UI, Axios

Backend: Java, Core Java, Spring Boot, RESTful APIs

Database: MySQL

Tools & Practices: Git, GitHub, Postman, API Development, Object-Oriented Programming (OOP), Debugging, Performance Optimization

Experience

Java Full Stack Developer | Oct 2024 – Present

- Developed and maintained **scalable full-stack web applications** using **React.js, Spring Boot, and MySQL**, improving overall system performance by **30%**.
 - Built **responsive, user-friendly UIs** with **React.js, Tailwind CSS, Bootstrap**, enhancing **mobile engagement and UX**.
 - Designed and implemented **RESTful APIs** with Spring Boot, reducing backend response time by **35%**.
 - Integrated **JWT-based authentication** with **Role-Based Access Control (RBAC)**, strengthening application security by **25%**.
 - Collaborated with **UI/UX, QA, and Product teams** in an **Agile/Scrum environment**, achieving **95% on-time sprint delivery**.
 - Diagnosed and resolved **bugs and defects**, reducing post-deployment issues by **40%** and improving **application stability**.
 - Streamlined development workflows using **Git, GitHub, Postman**, and **modular coding practices**, enhancing team efficiency and reducing development time.
-

Project

Inventory Management System | Team Size: 5

Tech Stack: React.js, React Hooks, Redux, Java, Spring Boot, Spring MVC, Spring Security, JWT, MySQL, Tailwind CSS, Bootstrap, Material UI, Java Mail API, Postman, Git

- Developed a **full-stack Inventory Management System** for **real-time stock tracking, purchase order processing, and supplier management**, improving operational efficiency by **30%**.
 - Built **responsive dashboards** with **React.js, Redux, Tailwind CSS, Bootstrap, and Material UI**, enhancing **UI/UX** and increasing user engagement.
 - Designed and implemented **secure RESTful APIs** using **Spring Boot, Spring MVC, and JWT-based Role-Based Access Control (RBAC)**, ensuring robust authentication and authorization.
 - Engineered **optimized MySQL database schemas** for inventory, suppliers, and transactions, improving **data integrity, scalability, and query performance**.
 - Integrated **Java Mail API** to send automated **low-stock alerts**, streamlining inventory control and supplier communication.
 - Applied **OOP principles, clean coding practices, and performance optimization techniques** to deliver **maintainable, scalable enterprise software**.
-

Education

Course	Year of Pass	Percentage	University
BSC	2022	63.51%	Srtmun University
MCA	2024	73.9%	Bamu University

Language :- English, Hindi, Marathi
