Summary

Results-driven **Full Stack Java Developer** with **1 year of experience** in designing, developing, and deploying scalable web applications. Proficient in **front-end technologies** (HTML, CSS, JavaScript, React.js, Tailwind CSS) and experienced in **back-end development** with **Java, Spring Boot, and MySQL**. Skilled in **RESTful API development**, **JWT authentication**, and **application performance optimization**. Strong knowledge of **OOP principles**, debugging, and problem-solving. Adept at working in **Agile environments** and collaborating with cross-functional teams to deliver **high-quality software solutions on time**.

Experience

NovaZone Services | Hyderabad
Java Full Stack Developer | Oct 2024 – Present

- Built and maintained **scalable web applications** using **React.js, Spring Boot, and MySQL**, improving **system performance by 30%**.
- Delivered **responsive UIs** with **React.js and Tailwind CSS**, boosting **mobile engagement**.
- Designed and implemented **RESTful APIs** with **Spring Boot**, reducing **backend response time by 35%**.
- Integrated **JWT-based authentication with RBAC**, enhancing **application security by 25%**.
- Collaborated with **UI/UX, QA, and Product teams**, achieving **95% on-time sprint deliveries**.
- Diagnosed and resolved **bugs**, reducing **post-deployment issues by 40%**.
- Streamlined workflows using **Git, Postman, and modular coding practices**, reducing **development time** and improving efficiency.

Skills

Frontend: HTML5, CSS3, JavaScript, React.js, Tailwind CSS, Bootstrap, Material UI, Axios
Backend: Java, Core Java, Spring Boot, REST APIs
Database: MySQL
Tools & Practices: Git, Postman, API Development, Agile, OOP, Debugging, Performance Optimization

Projects

Marathi-to-English Translation Learning Platform
- Designed and developed a **full-stack web application** for **learning Marathi-to-English translation**.
- Built the **frontend with React.js and Axios** for responsive UI and seamless API integration.
- Implemented the **backend using Spring Boot REST APIs** to manage authentication, quiz logic, and user requests.
- Managed **MySQL database** for storing words, sentences, users, and quiz results.
- Developed **quiz modules with multiple-choice questions** to enhance user learning.
- Ensured **smooth frontend-backend communication** via **RESTful APIs**.

Technologies: React.js, Axios, Java, Spring Boot, MySQL, REST API

Education

V.SS College Jalna | Jalna
Master of Computer Applications (MCA) | Jun 2024
